

UNO'S CORPORATE LEADERSHIP INSTITUTE

The **United Neighborhood Organization (UNO)** takes great pride in building a legacy of nearly 400 leaders that today serve as public officials, educators, engineers, health care experts and entrepreneurs, among others. Today, UNO introduces a new leadership program that focuses exclusively on leadership in the corporate boardrooms of America.

The new leadership at UNO is pleased to announce the Corporate Leadership Institute (CLI), a new program aimed at developing the next generation of Chicago Latino leaders who will gain a deeper understanding of what it takes to succeed and play a vital role in the business community.

Leadership is a key strategic pillar of our vision for UNO. Our goal is to enable the economic self-sufficiency of Latinos through education, entrepreneurship, leadership and civic engagement.

The new CLI program will continue UNO's commitment to creating a legacy of leaders for today and future generations.

The year-long program will focus on several topics, including Leadership Communication, Conflict Management, Influence without Authority, Moving Through Organizational Dynamics, Creating and Delivering Powerful Presentations, Effective Negotiations, and much more.

CLI PROGRAM PARTICIPANTS WILL:

- Recognize and adjust leadership behaviors to meet the demands of a changing business environment.
- Focus on the "people factors" that support or obstruct positive end results.
- Create more open lines of communication with key people throughout the organization.
- Engage a broader and more diverse group of key company stakeholders.
- Better assess individual and company needs to develop strategic relationships.
- Develop greater awareness of personal leadership style and its impact.
- Learn effective collaboration techniques.

UNO's Corporate Leadership Institute program is specifically designed for individuals with five to 15 years' experience in roles of increasing responsibility. Participants are top performers who want to grow as leaders within their respective fields. They represent companies of all sizes and stages in diverse, growing industries.
